

City of Camarillo's Instant Hot Water Recirculating System Application

Recirculating system will only be awarded to applying customers upon successful completion of inspection. Qualifying homes will receive one system. Tankless water heaters do not work with recirculating systems, and will not qualify. Customers are responsible for confirming if the device is compatible with their heater. Heat traps are incompatible with this device and will prevent the device from operating.

FIRST NAME: _____ LAST NAME: _____ ACCOUNT: _____
SITE ADDRESS: _____ CITY: _____ ZIP CODE: _____
PHONE NO.: _____ EMAIL: _____

Participation Questionnaire

1. What type of hot water heater do you have? TRADITIONAL TANKLESS (tankless water heaters do not qualify)
2. How many water heater(s) on site? _____
3. How many total bathrooms on site? _____
4. How many stories are in the house?
 1 2 3

Homes with multiple stories and/or multiple bathrooms may require an additional sensor (can be purchased by the homeowner from a distributor) to operate throughout the home.

5. Is there a power outlet near the water heater? Yes No
Is not, can power be provided to the area? Yes No

Additional Required Submittal Items:

- **A signed copy of the terms and conditions (Pg. 2)**
- **A legible picture of the current water heater**
- **A copy of your most recent water bill.**
- **A picture of unit installed within 60 days**
